PIER CAPS

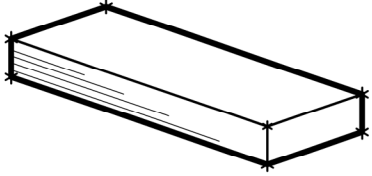

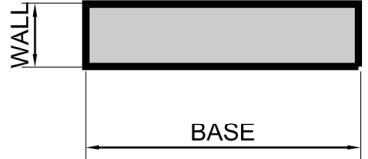

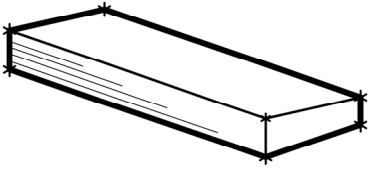

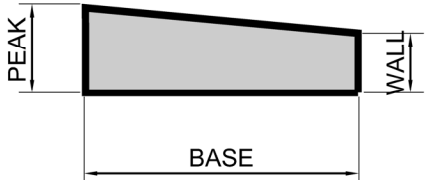

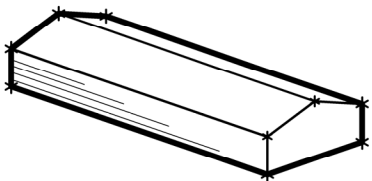

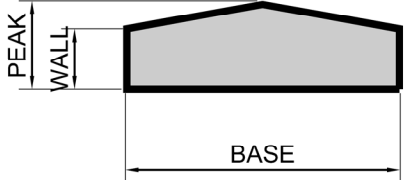

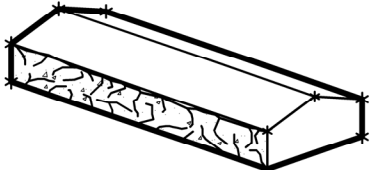

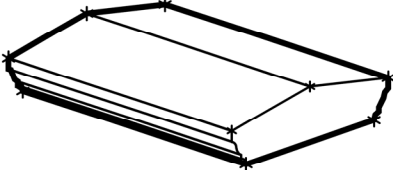

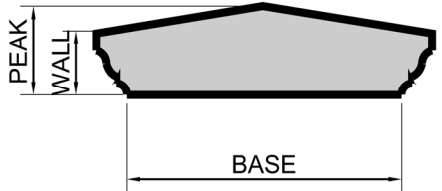

Pier caps are made in sizes to cover standard masonry piers, with a 1/2" to 1" overhang on each edge. Although most pier caps are square, custom rectangular or special angled caps are available by special order.

CAP TYPE	Cap Width at base	Wall Height	Peak Height	Part Number	PRICE	
 <p>FLAT</p>	14"	3"		PC01-14	22.00	 <p>FLAT</p>
	16"	3"		PC01-16	29.00

36"		4"	7"	PC14-36	379.00	

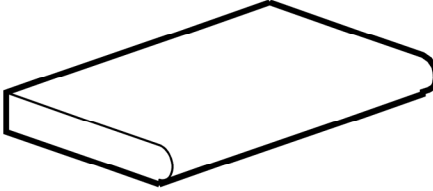

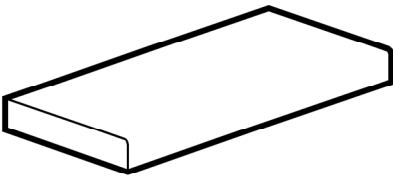

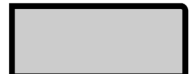

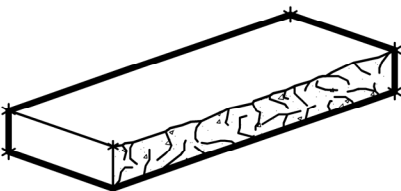

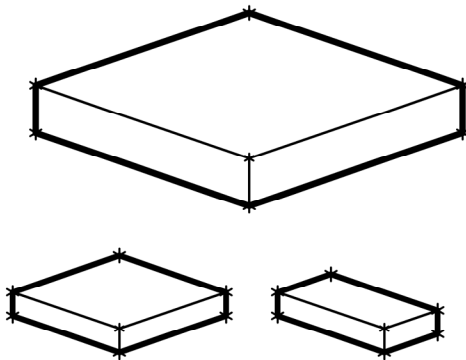

Wall caps come in standard lengths designed to minimize weight and cutting in the field (32, 40 and 48"). Wall heights are as shown below, but widths and lengths can be made custom made for each profile shown as desired. Corners, Ends and Angles are available as needed on Request.

COPING TYPE	Cap Base	Std. Height	Peak Height	Part Number	32" Long Price	SECTION
 <p>FLAT</p>	10"	3"		CF10	28.75

	26"	4"	6"	C426	128.75	

Standard tread thickness is 2 1/4" but they can be made in thicker sizes. They can also be custom ordered as radius, elliptical or even wedge shaped units for spiral stairs. Risers are also usually 2-2 1/4" thick and are sized to meet local stair codes. Pavers can be 2-3 1/2" thick and come in sizes from 4" x 8" to 24" x 36". Standard sizes are shown below.

STEPS/PAVERS/POOL

STAIR TYPE	Tread Width at base	Wall Height	Part Number	Per foot Price	Per 32" Piece Price	SECTION
